ABOUT ME

Computer Science student at Haaga-Helia, focused on backend and full-stack development, with hands-on experience building REST APIs and scalable web applications using Node.js and React. Interested in AI-driven systems and applying software engineering skills in real-world product development.

EDUCATION

HAAGA-HELIA UAS

Business Information Technology
Grade: 4.47/5

2024-2027

SKILLS

- Languages: JavaScript, TypeScript, Python, Java
- Frontend: React, HTML, CSS
- Backend: Node.js, Express, REST APIs
- Database: PostgreSQL
- Tools: Git, GitHub, Docker
- Currently learning: React Native / Flutter

PROJECTS

Quizzer – Full-Stack Web Application

- <https://github.com/The-Five-Stack/Quizzer>
- Contributed to both frontend and backend development in a team project
- Worked in an Agile (Scrum) environment with regular code reviews
- Improved understanding of clean code, collaboration, and debugging

Sadiverse – Authentication Backend

- Built a secure authentication system using Node.js and Express with JWT-based login, password hashing, and protected routes. Designed and tested REST APIs and integrated backend with frontend login flow.
- Deployed **Link**: <https://sadiverse.com/login>
- My project demo: https://www.youtube.com/watch?v=_x5C6ee-ZrM&t=1s

Personal Trainer – Fitness Web App

- Developed a responsive fitness web application using React. Built reusable UI components, integrated API data, and implemented a clean, mobile-friendly user interface for workout tracking.
- Deployed **link**: <https://personal-trainer-vercel-fawn.vercel.app/>
- My project demo: <https://www.youtube.com/watch?v=AbLtNqkThJI&t=255s>
